

Jordan's Principle aims to reduce barriers experienced by First Nations children when trying to access support and care required to maintain a safe and healthy lifestyle. Jordan's Principle in Manitoba applies to First Nations children aged 0 to 17 and can help with a wide range of health, social and educational needs. For more information and specific eligibility criteria go to www.jordansprinciplemb.com.

How to use this form: The Wholistic Intake Form is meant to be used by workers in the Jordan's Principle system when enrolling a new client. It can be used in conjunction with culturally appropriate history-taking techniques.

Reason for Intake		
Mental, Emotional & Spiritual Needs		
If yes to any, describe above: <input type="checkbox"/> substance use <input type="checkbox"/> significant losses <input type="checkbox"/> abuse <input type="checkbox"/> trauma <input type="checkbox"/> mental health concern <input type="checkbox"/> self-harm		
asQ Suicide Risk Screening Tool		
1. In the past few weeks, has the Client wished they were dead?		Y / N
2. In the past few weeks, has the Client felt that they or their family would be better off if they were dead?		Y / N
3. In the past week, has the Client been having thoughts about killing themselves?		Y / N
4. Has the Client ever tried to kill themselves? If yes, how?		Y / N
When?		
5. (If yes to any of the above) Is the Client having thoughts of killing themselves right now? If yes, please describe:		Y / N
<p>■ If Client answers "No" to all questions 1 through 4, screening is complete (not necessary to ask question #5). No intervention is necessary.</p> <p>■ If Client answers "Yes" to any of questions 1 through 4, or refuses to answer, they are considered a positive screen. Ask question #5 to assess acuity.</p> <p>- "Yes" to question #5 = acute positive screen (imminent risk identified). Client requires an immediate safety/full mental health evaluation. Client cannot leave until evaluated for safety. Keep Client in sight. Remove all dangerous objects from room. Alert primary care provider.</p> <p>- "No" to question #5 = non-acute positive screen (potential risk identified). Client requires a brief suicide safety assessment to determine if a full mental health evaluation is needed. Client cannot leave until evaluated for safety. Alert primary care provider.</p>
